PUBLIC CONCERNS & COMMENTS:

Neil Stein - 1722 Strong Road, Neil asked about the overlapping jurisdictions that come in to play when talking about an access management plan when the village resides totally in the town.

Supervisor Marren expressed that it his understanding now and also from his experience on the Village Board that they would work together unilaterally.

Kathy Rayburn, Director Economic Development - Kathy brought the board up to date on the Route 96 Strategic Infrastructure Improvement Plan. The committee had a final meeting on March 7th and at the meeting feedback with minor changes and additions was provided to the consultant Rich Perrin from T.Y. Lin. He will be making the changes and provide a copy to the board of the draft the week of March 19th, to have it ahead of the March 26th meeting when Rich Perrin will come back and submit a short presentation on the plan along with Mark Tayrien from LaBella on the environmental review that will also have to be done.

Kathy continued with an overview of economic development and LDC for 2017 to show the board the activities that they have been involved in. Kathy noted all who are now on the LDC board. It has been fourteen years that the Business Awards Luncheon has been successful and grown honoring over 200 businesses to date. This year they will be handing out 22 awards, key note for this year is Vic Salerno from O'Connell Electric.

Kathy spoke about the things that go into business outreach, everything from start- up assistance, relocation, building and site availability. In some cases, Kathy helps with landlord issues, networking or just giving some direction. Kathy has kept tract of the business interaction calls and then she put them in categories, like start up's, relocation, real-estate, and then recruitment. Spoke that the area of recruitment has not been an aggressive area and would like to improve on. She also spoke about the financial support that is provided through the LDC. Kathy also spoke about grant money that was received to help with new businesses and renovations of existing businesses both with town and village. Kathy worked with town department heads to create a list of projects that could use grant money. She also is taking a grant management class and will be taking a writing grant money class to assist the grant money process.

Kathy also highlighted some accomplishments:

- assisted with five start-up businesses
- the Village updating their code
- Launching the mobile app with Lisa Hubler helping to sell this for the town.
- Victor Business Connection, which use to be Victor Merchants Group, has been reinvented with Lisa Hubler the events contact person.
- County partnership has grown as well as the great collaboration with Planning and Building department in assisting with businesses

Councilman Tantillo thanked Kathy for all her great work and expressed concern when there was discussion on the Route 96 Corridor project with Mark Tayrien and Kim with regards to the meeting with the railroad there was some confusion with residents on what can and can't be done on timing. Also at the county level with the SECOR process. Wanted to make sure when the board meets with Rich Perrin there are answers for the residents on these issues.

Councilman Tantillo also asked for an update on Fishers Ridge for the next meeting.

Councilman Kahovec also commented on a job well done and would like to see an increased focus on recruiting more businesses in her goals moving forward.

Councilman Condon asked Kathy for data on how many residents are using our app and asked her to shoot an email with the info. Also commented that he is glad she is putting more emphasis on using the app.

Councilman Guinan added that he has the opportunity to work with Kathy and stated the amount of work that she puts in does not always net a result, due to grants and businesses that do qualify. He also noted that Kathy puts a tremendous amount of time in and never gets down.
