- **April 2019 Update**

The Town of Victor Planning Board ("the Planning Board") by vote of 3 to 2 taken on September 25, 2018 at a regularly scheduled Planning Board meeting denied the Revised Site Plan Application ("the Planning Board's Determination") and thereafter the Applicant filed an Article 78 proceeding ("the Proceeding") in Ontario County Supreme Court for the State of New York seeking to overturn the Planning Board's Determination and the Planning Board opposed the Proceeding and the relief sought by the Applicant, and following the Court's consideration of extensive submissions by the parties and oral argument, by decision issued by the Honorable Frederick G. Reed on January 22, 2019, the Court overturned the Planning Board's Determination finding it was arbitrary and capricious and without basis, and the Court further indicated it did not believe there was a basis to deny the Revised Site Plan Application in the absence of the Planning Board identifying grounds to re-open the New York State Environmental Review Act process ("SEQRA") and making a SEQRA determination contrary to what was previously issued by the Planning Board in this matter.

The Planning Board seeking to resolve the Proceeding and any further associated litigation including any appeal of the January 22, 2019 Decision ("the Litigation") as referenced without incurring further litigation expense, and following discussions among counsel for the Planning Board and counsel for the Applicant concerning same proposed a resolution which adopted and approved in accordance with the conditions and other matters set forth the revised site plan application and also fully and finally resolved the litigation conditioned in Judge Reed approving the same on April 23, 2019.

- **No New Updates to Report**
