

VICTOR, N.Y. APPROXIMATE BEDROCK SURFACE CONTOUR MAP.

See accompanying report for limitations.

Scale 1:12,000 (1" = 1000')

25-foot contours except where dashed.

• Approximate location of selected wells, seismic info., and outcrops (some wells not to rock, minimum overburden thickness).
 Solid arrows: Hypothetical groundwater movement at top of impermeable rock (may differ from actual).
